EXPORTING FROM Vatech (Ez3D Plus)

UPLOAD GUIDE

866-497-3692 • glidewelldental.com

Step 1: Right-click on an empty space on your desk to create a new folder (New \rightarrow Folder). Type in the patient name and click "Enter".

Step 2: On Vatech, open your image and click on "Tools" → "Export" → "Memory".

			-	SA iCat Exports (X:)

Step 5: Return to your desktop and right-click on the patient's folder to send to a compressed folder (Send to → Compressed (zipped) folder). A duplicate folder will be created with either a zipper or a blue "Z". Note: If following a Dual Scan Protocol, zip scans individually and label accordingly (i.e., "Patient Scan" and "Denture Scan").

Step 6: Upload your case on glidewelldental.com, then click and log in to "My Account".

Note: Use Google Chrome when uploading your case; additionally, if you do not have an account, please contact us and we will set it up for you. Your scan can also be sent on a disc or USB drive via standard shipping methods if digital upload is not possible.
