

FASTPRINT.IO™: THE SIMPLE, INTUITIVE, HANDS-OFF 3D PRINTING SOLUTION

NEW! **fastprint.io**™
3D PRINTING SOLUTION

Appliances from other printers are cloudy and use excessive material

The fastprint.io™ uses LuxCreo Digital Polishing™ for crystal-clear appliances with less material waste

- Print clear appliances with no hand polishing needed thanks to LuxCreo Digital Polishing™
- Depend on AI-enhanced automation for a streamlined 3D printing workflow
- Elevate your clinical possibilities with a practical same-visit solution

COLLECT

The fastprint.io integrates seamlessly with the fastscan.io™ Scanning Solution and is compatible with all popular intraoral scanners on the market.

CONFIRM

Enjoy AI-driven print-ready designs and fast one-click staging, slicing, and printing with a seamless workflow that eliminates clunky software integrations.

CREATE

Print same-day aligners with the first FDA-class II, 510(k) cleared direct-print clear aligner workflow plus a range of other appliances for same-visit solutions to patients.

COMPLETE

Minimal post-processing with LuxCreo Digital Polishing technology and an automated cleaning station allows for simple, same-visit delivery to patients.

EXPAND YOUR SAME-VISIT CLINICAL SOLUTIONS

GLIDEWELL RESINS

TuffSplint™ Appliance Resin	Modeling Resin
	
Optimized formulation for higher wear resistance, resulting in a long-lasting nightguard with higher patient comfort compared to rigid thermoform nightguards.	Tried and true material used in Glidewell's labs optimized for chairside use with strong resistance against staining and low volumetric shrinkage.

LUXCREO RESINS

DCA	DNG	DSG	DMR III
			
DCA offers a world-first direct print solution for aligners and retainers, eliminating the need for manual polishing while providing exceptional clarity and precision. DCA holds FDA Class II 510(k) clearance and has completed CE Ila certification for direct print clear aligners.	For splints and nightguards, DNG combines fast print speeds with exceptional transparency and an easy fit. DNG has superb abrasion resistance, mechanical strength, and biocompatibility.	Surgical guide material for implant procedures. DSG provides transparency, durability, biocompatibility, and accurate placement. As an FDA Class I biocompatible material, DSG provides safety and precision in all your dental surgical applications.	For orthodontic, restorative and implant models, DMR III offers fast, high-resolution 3D printing with toughness, further enhanced by its vertical printing ability for exceptional throughput.

Ready to start printing your own clear appliances?
The choice is clear — fastprint.io™ 3D Printing Solution.

Start printing with fastprint.io™ for only \$16,990*

Includes washing and curing stations plus starter kit.
