# fastscan.io™

## SCANNING SOLUTION

### YOUR DIGITAL WORKFLOW STARTS HERE

The fastscan.io™ Scanning Solution combines Medit® scanning technology with a seamless connection to Glidewell to deliver an affordable, straightforward path to digital dentistry.

- With a high-speed 70 FPS camera tip, **easily complete a full-arch scan in less than a minute**, creating a full-color digital impression of the mouth with all the details needed for a perfect restoration.
- **Help patients better envision treatment plans and increase your case acceptance** with the help of Smile Design, Ortho Simulation, and other popular Medit applications.
- Say goodbye to automated phone lines and overseas call centers. **With fastscan.io customer support, you get personalized help from an actual Glidewell technician at our California campus.**
- Enjoy a seamless connection to Glidewell for a **3-day turnaround and \$20 savings or more** per unit on model-free cases.

### WHAT YOUR PEERS ARE SAYING ABOUT THEIR EXPERIENCE WITH FASTSCAN.IO

“

*fastscan.io lives up to the name – its speed and simplicity are exactly what we needed to expand our in-office treatments at a fraction of the cost of other scanners on the market. The fact that it has no monthly fees and even includes a cart, laptop, and monitor is outstanding.*”

– Joshua Prentice, DDS  
Bend, OR

“

*Some in my staff had never used a scanner before. But after just two tries with fastscan.io, their scans looked just as good as mine! The training was great, the hardware is easy to use, and the Glidewell lab is wonderful. I can't say enough great things.*”

– George Marquis, DDS  
Fulton, MS

“

*I looked at the Medit scanner on its own before and I was interested in it as a product, knowing the speed and what it offered. But once it was integrated directly to Glidewell, and considering we do 97% of our lab work through Glidewell anyway, the value of the fastscan.io Scanning Solution was honestly a no-brainer.*”

– Jonathan Enright, DMD  
Warren, RI
